

## **AMENDMENTS TO THE CLAIMS:**

This listing of claims will replace all prior versions and listings of claims in the application:

Claims 1-16 (Canceled)

Claim 17 (Currently Amended) A flat panel display formed by a method comprising:

providing a plurality of effusion cells, each effusion cell having a plurality of ports, the ports of each effusion cell offset from the ports of the other effusion cells;

providing an optically transparent substrate having a first plurality of contacts formed from a first metal and a first transport layer formed outwardly of the first contacts;

transporting the substrate across the plurality of effusion cells;

continuously effusing an emissive material from the ports in each effusion cell to form a plurality of emissive strips;

forming a second transport layer over the effused emissive material; and

forming a second plurality of contacts, each second contact orthogonal to the first plurality of contacts and parallel over one of the emissive strips.

Claim 18 (Canceled)
